RE:

Tournament Schedule and Information

Enclosed is the Tournament game schedule. We are using the Washington Street Gym and the Civic Arena and there are 28 teams. We needed to combine leagues to create the divisions. It seems like each division is very balanced and should be quite competitive. On Saturday, we scheduled first round games and avoided teams being eliminated from play on the first day.

Please be advised that all league rules are in effect during the tournament. One clarification is that no technical sit outs will go into the tournament; but any technical sit outs that occur during the tournament will be in effect for league play. Any none league teams should review the rules closely and realize that players could have to sit out if they receive a technical foul. Also remind players that there is absolutely NO DUNKING at all the gyms. This is an automatic sit out technical.

We assume that you are playing with the players on your league roster. If you have any additions, they must be on your registration form. All non-roster players must be added by Thursday. We cannot have players just showing up to play with out prior approval. Scorekeepers will be instructed to not allow players that are not on your roster or added to your registration form.

The tournament always brings a more competitive atmosphere. Please try to maintain control of your players and curb their complaining to officials. They will be doing their best and we do not want bad situations to occur. Tourney Directors will be Adam Buckhouse and Bruce Kiefer from the League Board of Directors. I will be out of town so if you have any questions, you will need to contact them: Adam at 228-3513 & Bruce at 228-5578.
